447 SBC - Fuel Injected Port

640 HP with 605 TQ with pump gas. Maintain drivability while still creating real hot rod horsepower. Developed last year, this is the ultimate all around small block. This engine sounds like a race car, yet designed for the street. Get bottom 10 second power on 91 octane gas with brutal broad power everywhere. One of my favorite combos.

Complete assembly is fully balanced and blueprinted to our specifications. The motor is then broken in on the engine dyno and tuned for maximum power.

HOT ROD SERIES

-----\$24,500
